

HBI COLLABORATION MODEL FOR CHILD WELFARE SYSTEMS

Mission & Vision
Our mission and vision help drive our impact and align our partnerships.

Building Partnerships

We are led by the needs of local change agents and work collaboratively to address the challenges in their communities.

Identifying Solutions

We bring together coalitions of multidisciplinary-multicultural teams and gather evidence, validated materials and inspiration.

Designing Roadmaps & Bridging Resource

We scan the environment, brainstorm ideas, and build the methods to support the development of models of service delivery.

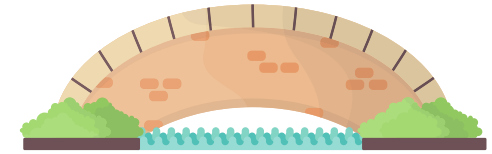

Consider Opportunities, Challenges & Threats

We collaborate with community leaders to test our assumptions to validate best practices and formulate a framework.

Evaluation & Testing

We do the work of ongoing research and evaluation to deliver evidence-supported results.

Help others to use our models.

We formalize our lessons and model and invite collaboration and partnerships.

VISION

Our vision is a world where every child, youth and young adult has access to a life built on health, hope, home and purpose.

MISSION

We collaborate with local champions to build evidence-based models that protect and empower vulnerable children.
